I thoroughly enjoy creating new things and never shy away from a challenge. Seeing ideas and concepts come to life is one of my favorite parts of the development process. I look forward to continuing to grow and develop the skills I already have, as well as learning new ones.

Work Experience

Accenture - Front End Developer: 07/2019 - Present

My role at Accenture has been as a Front End Developer with a focus in JavaScript and React. My main responsibilities have revolved around implementing new designs for existing applications and improving application accessibility.

Tasks:

- ❖ Produced websites compatible with multiple browsers.
- ❖ Updated websites and applications to meet usability requirements.
- ❖ Worked in Agile-driven environment to maintain project timelines and utilize available resources.
- ❖ Developed new applications and dashboards as well as maintained existing applications using JavaScript, React, HTML, CSS, SASS and other technologies, languages, frameworks, and libraries.
- ❖ Keep documentation updated and organized.
- ❖ Develop applications that pass through all stages.
- ❖ Analyze and resolve errors accurately and on time to meet client expectations.
- ❖ Clearly and regularly communicated with management and colleagues from other teams to solve issues and resolve problems.
